

GO SH!

With the wonderful inspiration from Brian Scott, Val Bertoia now recognizes his purpose in life is to share enjoyment with others, through tour groups and talks.

The healthiest way of life is to be connected with Nature at all ages.

B.S. = Bertoia Studio started by Harry Bertoia (Val's father) in 1952.

B.S. also stands for Beautiful Surroundings that Benefit Society with Brilliant Sunlight and sounds: including big \$s.

Money flows with intention from person to person. Val's intention is to expand the **Garden Of Sound Healing**.

The interior of The Barn is for sound-sculptures for people to enjoy. The expansion includes the gong pathway and lawn area that can be extended to the South field.

As the sun rises in the East to the West (as the Earth turns from West to East), its light reaches the south field on a clear day: Gongs then reflect the sunlight and can sound good as well.

Val's concept is to enhance visual and audible enjoyments for people on tour walking through Nature. So our clear understanding is that humans can add features to Nature that give healing energies and love.

Amen

A stylized, handwritten signature of Val Bertoia in black ink. The signature is fluid and cursive, with a large 'V' and 'B'.
